

Certificate

„Sustainable Partner“

AXICA

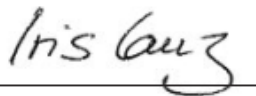

has been audited independently and transparently and is certified
as a **Sustainable Partner** in the category

High Performer

The partners listed on the Sustainable Meetings Berlin platform have been checked against an extensive catalogue of criteria. Based on internationally recognised and valid guidelines and frameworks, the catalogue is the result of an intensive development process working together with experts. Rather than being a checklist, the catalogue of criteria is a sophisticated instrument to anchor and evolve corporate sustainability in the event industry and drive forwards a process of constant improvement.

The listed partners have to demonstrate sustainability in four principal areas:

- Governance, Risk & Compliance
- Business
- Environment
- Society
